

Vaccine Safety Study Act (HR 3615, 115th Congress)

Directs the Department of Health and Human Services to conduct or support a comprehensive study comparing total health outcomes, including risk of autism, in vaccinated populations in the United States with such outcomes in unvaccinated populations in the United States.

Updated last **August 14, 2017**
for the 07/28/2017 version of HR 3615.

THE FACTS

HR 3615, the Vaccine Safety Study Act, would direct the Department of Health and Human Services to conduct or support a comprehensive study comparing total health outcomes, including risk of autism and other neurological conditions, in vaccinated populations in the United States with such outcomes in unvaccinated populations in the United States.
